Certificate of Achievement

This is to certify that

Priscilla de Pennart-Deneux

has successfully completed

AI – Transforming Fraud Prevention & Detection

Learning Objectives

- Explain practical ways businesses can utilize AI to streamline processes and enhance efficiency.
- Recognise and describe how fraudsters exploit AI technologies and understand the methods insurers can adopt to detect and prevent AI-enabled fraud
- Explain how AI-driven tools enhance decision-making, speed up claims handling, and improve overall accuracy in fraud assessment.
- Describe real-world scenarios of insurance fraud detection through AI, demonstrating the practical benefits and limitations of such technology.
